### SPANISH COAST SAFE

**Watson's Fleet Will Not Cross the Atlantic.**

**PLAN HAS BEEN ABANDONED ON ACCOUNT OF PROTEST.**

Washington, July 21—Special—The president has definitely decided not to send Watson's squadron across the Atlantic to bombard the Spanish coast. It is expected this will remove an obstacle to peace.

Madrid, July 21—Special—The authorities here and at the Canaries are seized with panic over the possible seizure of the Canaries by Watson, and powerful garrisons are being stationed there.

#### They Respect Each Other.

Santiago, July 21—Special—A perfect entente cordiale exists between the Spanish and American soldiers here. The former are satisfied at having surrendered to a brave and honorable foe; the latter beginning to respect the Cubans, for they have shown that they possess some good traits. Another bond of union is the fear the Spanish have of the Cubans. They know their lives would not be worth a rush if the Cubans had their way, and therefore they cling to the Americans as their only protectors against a cruel and vindictive race. While the Americans here do not chum with the Spaniards they are respected by them. Each is finding better qualities in the other than he expected and is gratified at the discovery.

#### Captives Are Satisfied.

Portsmouth, N. H., July 21—Special—Hitherto an unconditional surrender has conveyed to the Spanish mind visions of summary death, imprisonment in a loathsome dungeon, or deportation to a penal colony. The captives of Cervera's fleet now here can scarcely believe that they are prisoners of war. Their treatment is not what they conceived it would be, for they are more like guests of the American nation than its captives. All are highly pleased with their surroundings, and neither officers nor men would return to their former condition if they could.

#### Madrid Perturbed.

Madrid, July 21—Special—It is believed that President McKinley is responsible for the hitch in the peace negotiations, and that the United States is determined to get a foothold in Porto Rico. The government does not believe Watson's squadron is coming.

The government is meeting with financial trouble. The Bank of Spain is placing obstacles in the way of further advances, and demands security.

#### Sailed For Porto Rico.

Charleston, S. C., July 20—Special—The Grand Duchesse and transport No. 30 sailed today for Porto Rico with the Second and Third Wisconsin. Gen. Wilson and staff and Gen. Stone of Miles' staff, also sailed. The transports carry large quantities of provisions and ammunition. Another transport sails tomorrow with the Sixteenth Pennsylvania.

#### Food Scarce in Havana.

Key West, July 21—Special—The gunboat Mayflower arrived today with five Cubans picked up off Havana aboard. They report the conditions in Havana fearful. Food is almost exhausted. The Spaniards are beginning to realize the hopelessness of the struggle.

#### British Ship Captured.

Key West, July 21—Special—The British steamer New Foundland was captured by the blockading fleet. She attempted to reach Havana with a cargo of provisions and ammunition.

#### Spanish Ships Raised.

Washington, July 21—Special—A message from Sampson says the Maria Teresa will be raised by Sunday next. The Reina Mercedes will also be raised.

#### Waiting For Orders.

Chattanooga, July 21—Special—There has been no movement of troops as yet. Gen. Brooke is evidently waiting for orders.

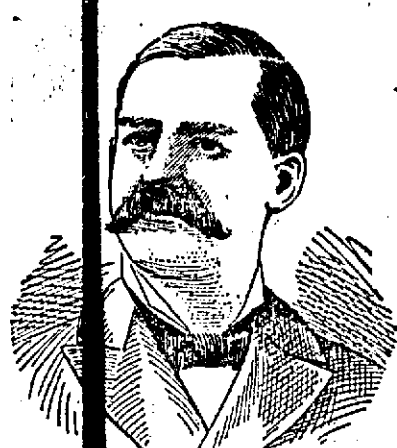

Commodore Frederick V. McNair, U. S. N.

BRIG. GEN. J. W. FORSYTH, United States Army.

Senor Polo De Bernabe, Spanish Minister at Washington.

Hon. Geo. McKeljohn, Asst. Sec. War.

#### There Is No Contention.

Washington, July 21—Special—Exaggerated importance has been given by certain newspapers to an alleged disagreement between army and navy officers operating in Cuba. It has been claimed that through jealousy of the army Admiral Sampson has practically refused to co-operate with Gen. Miles in the expedition to Porto Rico. Such is not the case. The delays that have arisen have been unavoidable. Sampson will obey the orders sent him unquestioningly. To do otherwise would be to court a trial for insubordination. He is not likely to run such a risk.

Sampson wired today that his ship is stated the move will be made Saturday.

#### Sousa For the Front.

Washington, July 21—Special—Bandmaster Sousa has accepted an invitation to become a member of Gen. Wilson's staff with the rank of captain.

#### Brooke on the Move.

Washington, July 21—Special—The movement of Brooke's division of nine thousand men for Porto Rico commenced this morning.

#### GIRL WIFE AFRAID SHE MAY BE SHOT

HUSBAND DECLARES SHE IS IN TERROR.

Prof. Henry Huyke insists that his bride has been kept away from him by threats and that the charges against him are wholly false.

Prof. Henry Huyke, formerly of the Myers House orchestra, says his wife has been kept away from him by force. As to her letter, he declares that she was given her choice of writing that letter or being shot. "The girl's statement in the Evansville Tribune is a forced statement," says Prof. Huyke in a letter to The Gazette. "In the first place I am not forty years of age and will not be for some years. In the second place I have not been married twice. In the third place I have communicated with my wife several times—July 8, 11, 12, 14, 16 and 20."

In the course of his letter Prof. Huyke declares repeatedly that his wife is an unwilling prisoner and is kept away from him by threats against her life. He insists that there is no prospect of suit being brought against him, as the parties concerned seem to be settling their goods and preparing for removal. He concludes by saying: "The facts in the matter are that the girl's life has been threatened and she is frightened so badly that she dare hardly talk for fear of being killed. This I found out by the conversation which I had with her this morning (July 20). As I am not willing to see a life blotted out or wringling with what might be a Blanton affair I let the matter rest and await future developments."

#### LEAF NOT RUINED BY THE HAIL STORM

MOST OF IT WAS TOO SMALL TO SUFFER.

T. B. Earle comes in from an inspection and reports that the plants have plenty of time to recover from the damage inflicted Tuesday.

T. B. Earle was in town today after a ride through the tobacco belt. He has been looking up the amount of damage done by the storm and finds that as a rule leaf was not far enough along to be injured seriously. Where the plants are only six inches high there is plenty of time yet for filling out and getting a good growth. "There seems to have been very little of the leaf far enough above ground to suffer greatly," said Mr. Earle to a Gazette reporter. "It was cut but the plants will mature with very little evidence of damage. Farmers who had big fields of corn suffered more than the tobacco raisers did. Corn will be hardly half a crop in some parts of the country that I drove through. Small grains also suffered. My corn crop has been reduced fully a third by the storm," said a Carter farmer today. "My tobacco also suffered, as it was just coming into bud."

#### CAPTIVE BY AN ACTRESS

California Woman Has Her Recreant Husband Arrested By the Chicago Police.

Chicago, July 21—[Special]—Hugo Von Schuester was arrested here last night on a warrant sworn out by his wife, who charges him with deserting her for Lettie Davis, a theatrical woman. Mrs. Von Schuester is a daughter of ex-Secretary Brouck, of California school.

### CUBANS ARE DISOWNED

**Their Insubordination Leads to Its Legitimate Result.**

**NO LONGER RECOGNIZED AS ALLIES, BUT TO BE DISARMED.**

Washington, July 21—Special—On Gen. Gen. Shafter's recommendation all orders heretofore issued providing for the distribution of arms among the Cubans or sending supplies to Gomez or other insurgents have been countermanded. No attention whatever will be paid to the Cubans hereafter as military allies. On the contrary at the least sign of insubordination Gen. Shafter has been ordered to disarm them. This report shows them to be utterly worthless, to be skulkers and looters, and expresses the utmost disgust for them. The Cuban Junta in this country is also said to be in disfavor.

Santiago, Wednesday, July 21—Special—Garcia has written a letter to Gen. Shafter declaring that he is disgusted with the treatment received at the hands of the Americans, and will consequently withdraw his forces, being no longer willing to submit to the indignities to which he has been subjected. Garcia complains of Shafter's failure to officially notify him of Santiago's surrender, and is incensed because he was not invited to attend the ceremony of the formal capitulation. Another of his grievances is Shafter's act in retaining the Spanish civil authorities in office at Santiago. Garcia declares he will no longer co-operate, but will act immediately.

#### The Situation at Santiago.

emplates marching his army against Holguin, which is occupied by ten thousand Spanish troops.

Lieut. Delehany, of the Suwanee, is removing torpedoes and other obstructions in the harbor. The mines were found to be almost useless. Delehany, in his examination of the wreck of the Reina Mercedes, found a signal code and Spanish naval chart of the West Indies. Renewed naval operations are consequently possible.

The Spaniards who have already surrendered say other garrisons in the surrendered district will lay down their arms without hesitation.

Shafter's plans may be undergoing important changes on account of the defection of the Cubans.

The Spanish steamers surrendered with the fall of Santiago have started for the United States with prize crews aboard.

The troops are greatly fatigued, but the general health of the army is good.

The towns of Siboney and Baiquiri are deserted.

#### Cubans Are Revengeful.

Washington, July 21—Special—The fact is admitted here that it will be unsafe and ruinous, after the Spanish army shall be driven from Cuba, to turn the administration of affairs over to the Cubans. These entertain such a hatred of everything Spanish as would lead to excesses of the worst description. They would doubtless pillage and massacre all suspected of Spanish sympathies, whether belligerents or not, and bring disgrace upon the American name by using the protection afforded them by our armies as a shield for acts of utter lawlessness. After the conquest a strong force will be needed to restrain the Cubans from such excesses, and it may be years before they can be safely left to themselves. A protectorate for the island, backed by an adequate military force, is now regarded as essential. Absolute independence guaranteed the Cubans would be simply a license to commit atrocities that would paralyze the world with horror.

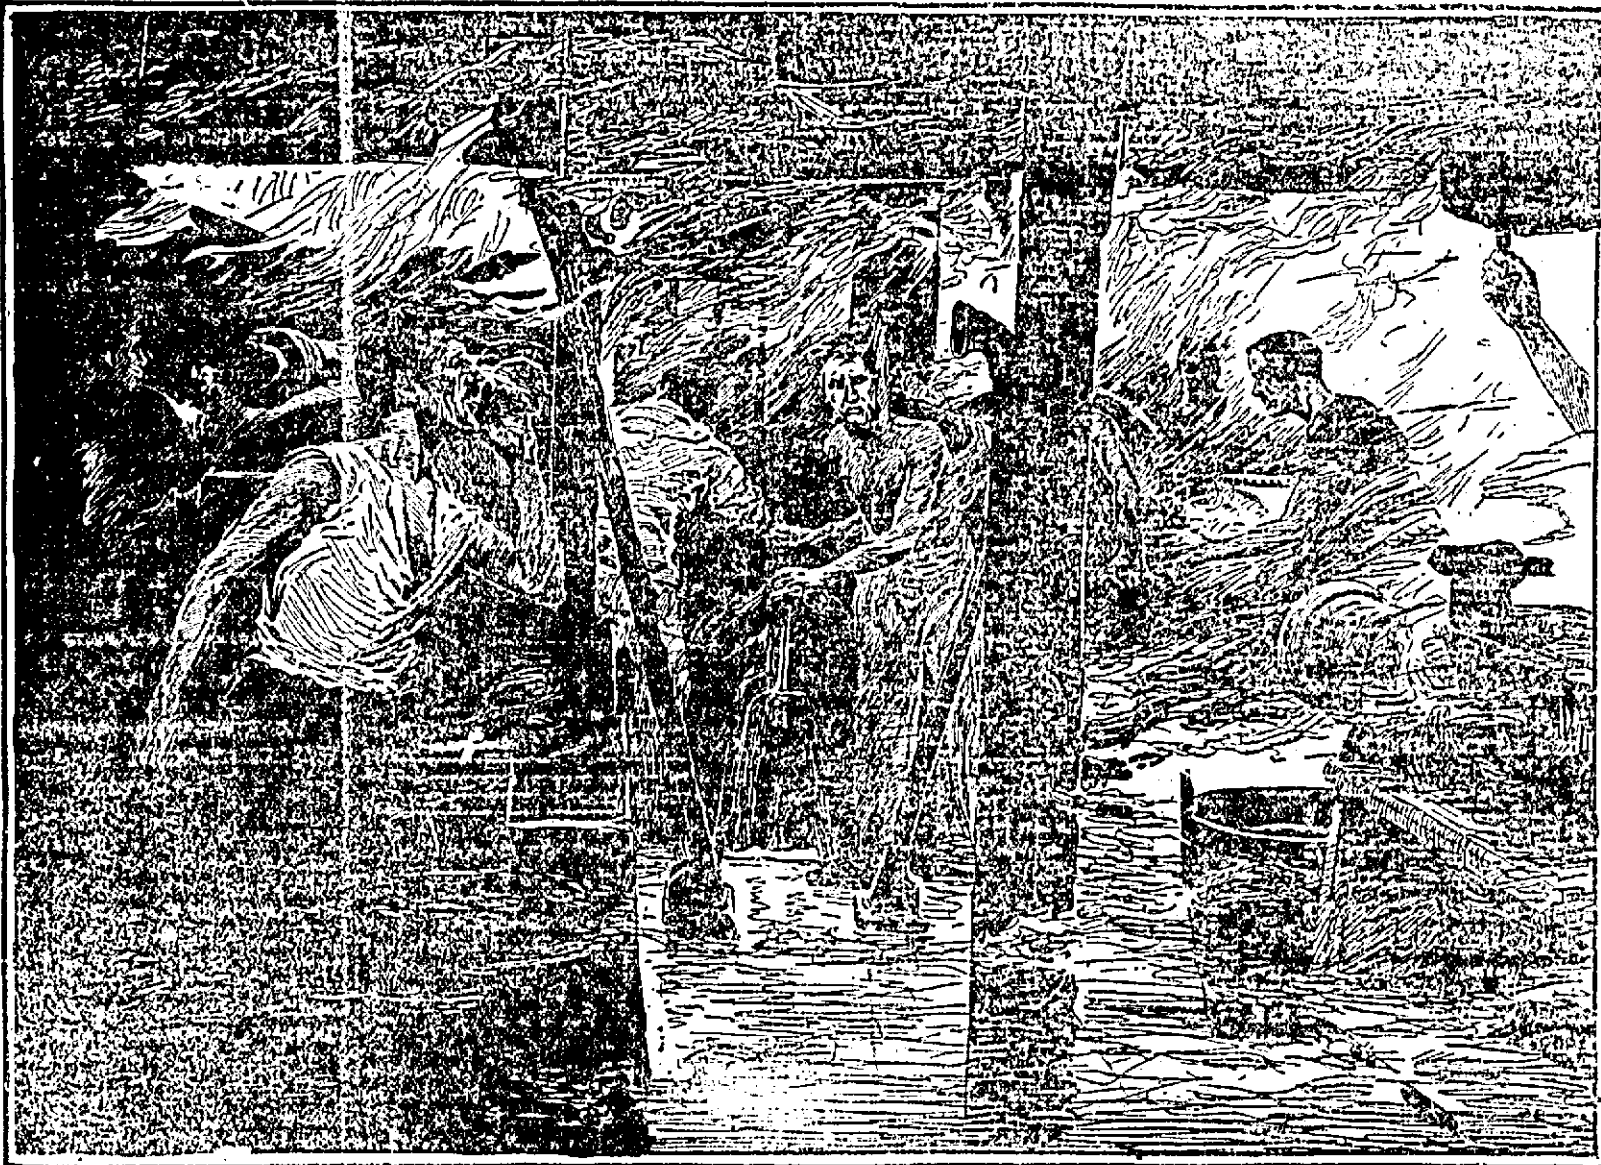

#### The Manila Situation.

Washington, July 21—Special—The following was received from Admiral Dewey today: Situation unchanged. Second army detachment arrived on the 17th. The health of the squadron continues good.

#### Gen. Wood Is Governor.

New York, July 21—Special—The Evening Post's Santiago special says: Gen. Leonard Wood has succeeded Gen. McKibben as military commander of Santiago, McKibben having been relieved.

DURING THE DESTRUCTION OF CERVERA'S FLEET. FORWARD TURRET OF THE "IOWA" IN ACTION. FROM HARPER'S WEEKLY.

DRAWN BY H. REUTENDIHL. Reproduced from Harper's Weekly. By Permission. Copyright, 1898, by Harper &amp; Brothers.

On the morning of July 3, about 9:30, the Spanish fleet tried to escape from the harbor of Santiago, where it had been bottled up by the American warships.

In a remarkably short space of time after the Spanish ships were sighted, every gun on the American battleships was manned and loaded and the guns were ready for the word "Fire" which would mark the beginning of the battle. They had not long to wait, for it took but a few minutes for the Span-

ish cruisers to pass in single file the wreck of the Merrimack, clear the harbor, and dash for the open sea to the westward. Pouring a hail of shot and shell the American ships closed in upon them.

The well-trained American gunners sent shot after shot surely and unsparingly into the fleeing foe. In half an hour half the Spanish fleet had been destroyed, and in a little over an hour the battle was finished and Cervera's fleet a thing of the past.

We reproduce, with permission, a picture from the issue of Harper's Weekly for July 23, showing the forward turret of the battleship Iowa in action during the destruction of Cervera's fleet.

A 12-inch projectile, sent with unerring aim from the Iowa's forward turret struck and set fire to the flag ship Maria Theresa, the first of the Spanish ships destroyed. Another 12-inch from the Iowa crashed into the bow of the leading much talked of

torpedo boat destroyers, and caused her to turn towards the shore a wreck.

The Iowa then steamed to assist the Oregon, Texas and Brooklyn in their chase after the remaining Spanish ships, but by the time she caught up with them the battle was over. With the same energy displayed in destroying Spain's vessels, the Americans manned their small boats and rescued the Spanish sailors from their burning vessels.

### HAVE A WAR OF THEIR OWN

North Carolina Troops Fight a Battle with the First Wisconsin.

The Jacksonville correspondent of the Chicago Inter Ocean gives the following account of a little unpleasantness that took place on Tuesday last between members of the First Wisconsin and the North Carolina regiment at Camp Cuba Libre:

For some unaccountable reason the North Carolina boys are determined to do some fighting, even though it is not at the front. One member of this regiment forced the lines of the First Wisconsin today and, after a few pertinent remarks to one of the men, started in to emphasize his speech with his fists. The Wisconsin men accepted the invitation, and both were soon engaged in dead earnest. Men from both regiments joined their respective comrades, and clubs and other weapons were brought in to help out matters. The North Carolina sentry guards reached over with rifles and were soon met by Wisconsin guards with their guns, and had it not been for the Second Virginia boys charging in between the now intensely angry soldiers some one would have undoubtedly been seriously wounded or killed. The feeling between the North Carolina and Second Illinois regiments, over the shooting of Lick, yesterday, was very bitter, and tonight that same feeling exists between the North Carolina and Wisconsin men. The latter regiment occupies a position between the Illinois and Wisconsin troops, making the situation unpleasant in the extreme.

### Healed the Wound

Abscess Was Lanced but Would Not Heal Until Hood's Sarsaparilla Purified His Blood—Now a Healthy Boy.

"Our little boy had a large abscess on one side of his head, back of his ear. It became as large as a pint cup. We had it lanced, but it seemed as though the wound would never heal. It would get better for a short time and then would break out again. The boy's body was covered all over with itching pimples and blotches. We decided to give him Hood's Sarsaparilla, and, to our great joy, it has entirely cured him. He was always a weak and puny child, but since taking Hood's Sarsaparilla he is strong and rugged, and as healthy a boy as anyone could wish to see." T. L. JONES, Bluffton, Minnesota. ### TOOK CLOTHS BY MISTAKE

A Ragman Came Near Getting a Rich Hunt By Mistake.

Residents of Court Street near Sinclair were thrown into a flutter of excitement yesterday when one of their number rushed to the nearest telephone to notify the police that a peddler with a fondness for other people's fine linen was abroad in their midst. It seems the aforesaid resident had tied her week's accumulation of washing in a sheet and left it on the side porch for the laundry man to pick up. In the course of a short time a rag man appeared and either by mistake or design and while her back was turned included the bundle of clothing with the rags she had for sale. Sheriff Acheson promptly ran the man down and recovered the articles. The man was allowed to go his way as he insisted it was purely a mistake and that he had no intention of committing a theft.

Oldest Religious Organization in the City Will Have a New Edifice.

Baraboo, Wis., July 21.—The laying of the corner stone of the new First Methodist church of this city took place Tuesday evening with imposing ceremonies. The programme consisted of music, speeches, etc., the principal address being delivered by Rev. G. H. Trever, D. D., of the Washington avenue church, Milwaukee. An invitation was extended to all the ex-patriots living to be present and several attended.

The church society was organized in 1842 by Rev. T. L. Fullerton, but was not supplied by a regular pastor until 1849, when Rev. A. Wood was appointed. The Methodist Episcopal society is the largest in the city, having a membership of 350. The new edifice will be built of extra quality of red brick, and when completed will cost \$20,000.

## NOT TOLD TO SURRENDER.

Gen. Toral Acted on His Own Responsibility.

## EXPLANATION FROM MADRID.

Gen. Blanco Tells His Home Government That the Utmost Enthusiasm Prevails at Havana—Spanish Commander at Guantanamo Refuses to Surrender.

Madrid, July 21.—A semi-official note has been published here explaining the circumstances, from a Spanish standpoint, of the surrender of Santiago de Cuba. It declares that the letter which Gen. Toral "is alleged to have written to Gen. Shafter" is apocryphal, as the telegraphic version contains a statement which it is impossible for Gen. Toral to have made, because it is untrue that his government authorized him to capitulate.

The note continues: "What happened was that the war ministers received two telegrams from Capt.-Gen. Blanco. The first described Gen. Toral's position, which was most pitiful, because of the want of provisions and ammunition. It also detailed the enemy's proposals. In the second telegram Capt.-Gen. Blanco gave the terms of the capitulation and requested instruction. The war minister replied to both telling Capt.-Gen. Blanco to leave every initiative to Gen. Toral, for it was impossible to recommend any other line of conduct. Gen. Toral accordingly acted as he thought advisable, and would explain before a court-martial the motives which induced him to capitulate."

An official dispatch from Capt.-Gen. Blanco announces that the greatest enthusiasm prevails there, and that the feeling in favor of resisting the "Yankee" is universal. It further asserts that the commanders of the volunteer forces, at a conference under the presidency of Gen. Arolas, military governor of Havana, resolved to "exhaust their resources and die rather than surrender."

The American warships, the dispatch says, are off Manzanillo, apparently awaiting instructions, but the bombardment has not been resumed.

Gen. Parreja, the Spanish commander at Guantanamo, refuses to be included in the "capitulation" of Santiago de Cuba. According to Spanish law, a commander can surrender the troops which he personally commands, but he cannot oblige other commanders at distant points, even though under his authority, to follow suit. Consequently it is held here that the "capitulation" comprises only about 7,000 troops actually at Santiago.

## CURTAIL COTTON PRODUCTION.

Many Signatures Being Appended to the Proposed Agreement.

Fall River, Mass., July 21.—Progress in the work of obtaining signatures to the agreement to curtail the production of cotton goods is slow but steady. The agreement calls for a shut-down of at least 3,000,000 spindles, one-half being in the mills in this city. Some members of the committee are in outside centers looking for signatures. The impression here is that the mills in Rhode Island will join when a certain number of spindles in this city are represented. There is much discussion among local manufacturers regarding the amount of stock reported on hand here. It is said on the authority of a broker, well posted, that the stock on hand is not more than 1,300,000 pieces, of which 500,000 pieces are regulars.

## Haiti and France May Clash.

Port au Prince, Haiti, July 21.—It is rumored here that some friction is likely to arise between France and the Haitian republic. In spite of the remonstrances and urgent demands of the French minister, the Haitian government still refuses to abrogate the recent decree of expulsion issued against Mme. Hermance, a French subject who was expelled as a person dangerous to public security, shortly after her notorious collision in the cathedral with Mme. Simon Sam, wife of the president.

## Five Steamers Lost.

Seattle, Wash., July 21.—The steamer Lakme, leaving Dutch Harbor July 11, brings the news of the loss of five Yukon river steamers bound from sound ports to St. Michael's, in tow. The steamers are the W. F. Evans, Alfred J. Beach, International, Argo No. 2, and Constantine. All save the Evans foundered at sea. The latter is a total wreck on an island south of the Alaskan coast. Not a life was lost, although two of the steamers were crowded with passengers.

## Old Iowa Bank Is Closed.

Marshalltown, Iowa, July 21.—The doors of the Commercial State bank, one of the oldest institutions in the state, were closed Wednesday by State Bank Examiner Walters. It is announced that the bank will pay every liability. The stockholders say reorganization is necessary, and a complete examination is desired before that step is taken.

## Admiral Massie Is Dead.

London, July 21.—Admiral Thomas Leeke Massie, known as the father of the British navy, is dead. He was born in 1802, entered the navy in 1818, and served at Navarino, Beyrout, Sidon and St. Jean d'Acre, and in China and the Black sea.

## Chinese Attack Americans.

Shanghai, July 21.—There has been a slight Chinese outbreak in the American settlement. The police used their batons on the rioters, and arrested six of them.

## OUTPUT IS RESTRICTED.

Clean-up in the Klondike Is Less Than Expected.

Dawson City, Alaska, June 25, via Seattle, Wash., July 21.—The output of the mines of the Yukon region this year, while it has reached between \$10,000,000 and \$15,000,000, has disappointed even the more conservative estimates made last fall, based on the prospects then existing. Three things have contributed to shorten this spring's clean-up—the Canadian royalty, the lack of men and the lack of proper food.

A prominent civil engineer who spent the winter in the mines said: "Considering the fact that less than 2,000 poorly fed men have taken out almost \$15,000,000 the Klondike has made a showing that entitles it to consideration as the greatest gravel deposit in existence and the richest in the world. The placer mines of California in early days are its only rival."

## Decision Concerning Militia.

Washington, July 21.—A decision has been rendered by the secretary of war, holding that the acceptance and muster of officers in service with militia organizations and not provided for by law in organizations of the regular army, or of officers with higher rank or pay than is allowed to officers of similar grades in the regular army, applies only to those who held commissions and were actually in service with the militia at the time the members enlisted in the volunteer army, and were appointed by governors to similar positions in the volunteer organizations. Hence, upon the promotion, discharge, resignation or death of any such officers appointed in excess of the regular army organization, the offices held by them in the volunteers lapse and cease to exist.

## His Army Must Wait for Pay.

Washington, July 21.—Paymasters who have been ordered to Santiago to pay off Gen. Shafter's army are returning to Washington from New York and those getting ready to sail from Tampa have been detained. The Resolute, which expected to get away last night with about \$1,000,000, did not go, and the money will be returned to the treasury in New York. Gen. Shafter intercepted the departure by a telegram saying that the army was in no condition to be paid, and that it was not practical to have the paymasters at the front. He asked that the work be deferred until he sent orders.

## Have Little Use for Cruisers.

Santiago, July 19, via Port Antonio, July 21.—The guns are being taken off the ruined Spanish ships by government lighters. The examiners conclude from the damage done to the armored cruisers that they are not a greatly serviceable type of warships, as their engine rooms are easily incapacitated. The battleship is the vessel best adapted for heavy fighting. As heavy an armament as possible, with less care about the armor, is what naval men approve for cruisers.

## All Oppose Sugata.

Madrid, July 21.—The newspapers here say that a coalition is being organized between the different parties and against the government on account of the suspension of the constitution. The peace movement is losing ground, and a newspaper ventures the supposition that a British squadron would prevent the American squadron from passing the straits, but the suggestion is regarded as improbable.

## Designs for a Sword for Dewey.

Washington, July 21.—The navy department continues to receive elaborate designs for the sword to be presented to Admiral Dewey under act of congress. One of these which came to Assistant Secretary Allen today is a bas-relief of an actual sword, with the hilt set with many brilliant stones, representing diamonds and rubies. The design itself, with the many brilliants, is more costly than most swords.

## Captured Ships Are Not Prizes.

Washington, July 21.—Secretary Alger announces that it has been finally and definitely decided that the ships taken in Santiago harbor by the surrender of that city became United States property, not prizes of either the army or navy. This is in accordance with a former supreme court decision.

WILLIAM A. JACKSON, Secretary.

AN UNHOLY ALLIANCE.

The reason that the La Follette machine has such enthusiastic support from the democratic press is apparent. The democrats realize that they have no show to win this fall unless they can get some side issue. For this reason they encourage the La Follette machine in attacking Wisconsin republicans in general, and Governor Scofield in particular, so that they can use the "charges made by well known republicans" as campaign ammunition. The La Follette machine falls right in with the scheme for the simple reason that they do not want to see republican success unless the La Follette machine is in charge of affairs. That this is the scheme there can be no doubt, and the Waukegan Dispatch, a democratic paper, admits it as follows:

"Republicans opposed to Governor Scofield may properly urge the matter to his discredit, and democrats will not keep silent respecting it in the event of his renomination."

The "unholy alliance" thus formed between the La Follette machine and the democrats will fall in its effort, however, as the people know Governor Scofield to well to be misled by schemers. The fact remains, however, that the La Follette machine is systematically at work to aid the democratic party, a state of affairs that true republicans do not relish.

SYLLY IS IN A CELL.

And now Sylvester Scovel is in a dark, dank, cell. Syllly is one of the gentlemen who filled the American people so full of yellow war news, and sought to run the government in addition. Syllly did fairly well until he bumped up against General Shafter. When he told Shafter to "go to," however, the general "called to quail," and told Syllly to run along to his mamma, or something of that kind, whereat Syllly smote Shafter on the left cheek. Hard hearted soldiers at once seized Syllly and cast him into a dungeon, where he now lies—but not in print—and he is in danger of being shot by order of a court martial. Syllly never was a credit to the newspaper profession, and now that he has shown that he is not a gentleman, he may as well be left where he is.

REPUBLICAN STATE CONVENTION.

Headquarters Republican State Central Committee, Milwaukee, June 15.

o the Republican Electors of Wisconsin:

By direction of the State Central committee, a convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at 12 o'clock noon, for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.

The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention.

In accordance with resolution recommended by the state convention and formally adopted by the State Central committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee county, the unit basis shall be the assembly district, and in such counties delegates shall be elected by assembly district conventions, and the names of the delegates so elected shall be certified to the State Central committee by the chairman and secretary thereof; in all other cases delegates shall be elected by county conventions.

Under the present basis of representation the several assembly districts in the state are entitled to one delegate for every two hundred and fifty (250) republican votes, or major part thereof, cast at the last preceding presidential election.

Special attention is hereby called to the fact that all conventions to elect delegates to the state convention must be called on a notice of not less than four weeks; all town or ward caucuses as primaries to state convention on a notice of not less than ten days, and that notice of the meeting of such convention or caucus shall be given in the usual manner.

As the State Central committee acts as the Committee on Credentials, it is requested that credentials of delegates elected, duly certified to by chairman and secretary of county or assembly district conventions, be forwarded to the secretary at Republican State Central Committee headquarters in Milwaukee, immediately upon their election; in every case giving the names in full and postoffice address.

EDWIN D. COLE, Chairman.

JOHN M. EWING, Secretary.

Rock county will be entitled to 33 delegates, distributed among the assembly districts as follows: First district, 9; Second district, 11; Third district, 13.

Madison Journal.—Mr. La Follette is reported to have nine stenographers and typewriters at work on a new circular letter that is to be sent out, "sealed and confidential" all over the state. "Subscription paid" copies of The State are in every home. A startling rumor of a combination by which the "snows" are furnished by an ambitious man of great wealth is in circulation this afternoon.

Congressman Cooper's successful fight to defeat the Pacific railway funding bill—thus bringing over one hundred millions of dollars into the national treasury—won him wide fame. He was not afraid of the powerful and fully organized backers of the scheme, nor won over by the glib tongued lobby.

The Watertown Daily Times characterizes the sham reformers who are filling the state with din, as "shoddy politicians." The point is well taken, and explains the failure of the reform machine's endeavor to pull the wool over the eyes of the people—they had no wool to pull, and shoddy would not do.

"Pay shud we spend money for books when we can be buyin' more steam rollers an' electric lights," said Casey to O'Hoolihan. "Yez spend too much time anyhow, O'Hoolihan, a radin' av O'Connell O'Doyle's Frinch novels. That's why yez hav astigmatic myopia. At which point, O'Hoolihan elugged him.

In making up its list of attractions for the Wisconsin political museum, The Janesville Recorder overlooked the fact that the name of an eminent man had been omitted—the Hon. Robert Schilling, of Milwaukee, Wis.

The La Follette machine is spending money lavishly. Thirty thousand copies of the official organ "The State" are issued each week, most of which are sent out on the "subscription paid" basis.

And in the mixup that followed, the long suffering but patient carrier boys got forty cents each. This was a much more liberal settlement than they expected, however.

The unanimous opinion of the press of the state seems to be that Mr. La Follette's letter was not a "confession of faith" but rather a confession of a greed for office.

The La Follette machine appears to be in the nature of a fanning mill—a machine that makes a rasping noise when made to revolve swiftly by a crank.

Perhaps Syllly Scovel thought he could emulate the noted gentleman who was able to seek retirement in safety after striking the late Mr. Patterson.

The education of some men is never complete until they take a course in a famous institution of learning at Dwight, Ill.

Fancy Penches.

We are receiving from our South Water street commission man every morning fifty baskets of the celebrated Georgia Elberta peaches, the choicest fruit of the early season and about as nice as any received throughout the summer.

Prices are very low; only 25 and 30 cents for large baskets, not too high for every day eating. Sanborn.

We are now offering better values in summer underwear than ever before. T. P. Burns.

ICE FOR SOLDIERS' NEEDS

It Cannot Be Shipped by Those Now So Hoarding Funds.

Certain parties are circulating subscription papers in the city for the purpose of raising funds with which to purchase ice for the soldiers in the field. The Gazette is informed by officials of the Soldiers' Aid society that the enterprise is unauthorized and useless. Wherever it is possible to provide such luxuries they are furnished through the regular channels. It would be impossible for any organization not connected with the army to supply the wants of the men in this respect if they were in need, and money given for the purpose is simply wasted.

If any citizen of Janesville desires to contribute to the comfort of the soldiers he can do so most judiciously through the Women's Soldier's Aid society, which is composed of women of recognized standing and responsibility. All funds placed in the hands of this society will be intelligently and judiciously expended.

Royal Neighbors Picnic

Royal Neighbors will have their annual picnic at Crystal Springs park Monday afternoon to end up with a grand fete and ball in the evening. The ladies will be dressed in becoming costume of ancient date and a prize will be given the most unique costume on the floor. The grounds will be beautifully decorated with Japanese lanterns and headlights. Smith's orchestra will furnish music and a program will be given before dancing. Ice cream and cake and lemonade will be served on the grounds. Round trip tickets on Capt. Buchholz's boat, 25 cents. Tickets for grand ball and fete 25 cents.

## SOLDIER BOYS HAVE A HOLIDAY

### MANY JANESVILLE RECRUITS VISIT ST. AUGUSTINE.

Sunday Was a Day of Rest From Military Duty—Donations From Home Thankfully Received—A New Code of Rules in Force—Gossip of the Camp.

Camp Cuba Libre, Jacksonville, Fla., July 17.—Today has been an off day. Family have no drills nor parades, and Captain Ha son gave permission to the men to do as they pleased; and passes were issued to all comers. A good many took advantage of the opportunity and went to St. Augustine. The cars, the train was crowded and in place of leaving at 9:30 a. m. did not get away until 11:45 and was full from roof to bumper with volunteer excursionists.

Sergeant Mauthe and Corporal Lucasman took charge of a delegation from this company composed of Sergeant Hill, Artiller Schmitt, Muselman, Brownman, Waggoner, Yocum and Privates Caniff, Cunniff, Cunningham, Dixon, Diller, Barnes, Freeman, Perry, Pindora, Hammond, Haid, Jere, Karney, Kulpsheld, Kug, Luthie, Siderman, Meason, Mitchell, Preuss, Herman, Preuss, Earsos, Reynolds, Rice, Sisson, Saitz, Sholdon, Stewart, Synott, Shaw, Swift, Tilt, Wilbur, Walrus, Wolf and Walsh.

Corporals Hall and Nott and Privates Hagar and Servis took the trip to Public Beach. Others went fishing or down town to church and dinner.

Corporals Hall and Brown, Sergeant Schmitt and Privates Klenow, Irish and Lutzow visited St. Augustine yesterday, and Sergeant Thom and Private Filat are booked to go tomorrow. This is about the first "plennie" season the boys have had, when so many have been allowed to leave the camp at one time. But it has given every one a chance to visit this great point of interest, the oldest city in the country, and its many historical spots as well as having a day off on the Atlantic.

A letter to Private Synott from a well known Janesville clergyman enclosing \$10 "for the boys" was received and I'm sure that could the reverend gentleman have heard the boys when the first sergeant announced the fact, he would have been satisfied that they were truly grateful.

Lieutenant Bloedel and Corporal Nott were lucky and caught some good fish yesterday.

Lieutenant Baldwin is anticipating the arrival of his wife, whom he expects soon.

The disappearance of several packages and letters mailed to or from Co. A., has caused some anxiety. I am told that government detectives are working on the matter. It is a wise precaution to send money orders or registered letters when sending funds to us.

The following pleasant little welcome greets callers at Capt. Brown's tent:

Don't discourage the soldier boys. To visitors.

Glad to see you—always. Are not afraid—not yet.

We know we are liable to be shot. We do not know how we will feel when we get hit.

We are liable to be sick. We might be sick if we stayed home.

Yes, if we get a chance we will shoot.

Would we kill a Spaniard? Ask Dewey.

We don't know whether we will be glad when it all over. Most likely.

We are sorry we are leaving our wives and children and our sweethearts.

If you are wives and children do not weep and make a scene in camp, we went through all that and it unnerves the rest of the boys in the ranks.

If you are our sweetheart, you know what to do. But be careful, the officer of the day may be a bachelor.

We were never in any other war, if we had been, we wouldn't be in this one, on account of our age, and for some other reasons.

The tent leaks when it rains. We have had some leaks. Yes, it is unpleasant when it rains.

We are fond of our pictures. Those that represent us as facing bursting shells and walking over the mangled remains of our comrades and a dead horse, and that have vultures in the air, are especially fascinating to the young soldier in camp.

If you have tears to shed, please notify the guard, and he will show you where the shed is.

Always glad to see you. It is a source of never-ending fun for the boys, the recruit on guard.

General Baneroff is exceedingly strict, and asks any question of any member of his command that may occur to him. And joyously brilliant are his answers. Tactics teach the soldier that he shall "walk his post in a military manner, keeping constantly on the alert, etc." Imagine the surprise of the general when he asked an Illinois "Rockie" what his "general orders were" to have the answer, "They're to hot foot from dat tree to dat stump and keep a rubbin' round to see wats goin' on and turn out do push (guard) wad do main guy (commanding officer) comes around."

The Royal Neighbors will hold a lawn social this evening at Mrs. Charles W. Brooks', 212 North Bluff street. Ice cream and cake 10 cents. A short program will be given at 8 sharp.

It takes three hours for Chicago evening papers to get to Janesville. It takes less than one second for the telegraph to cover that distance. The Janesville Gazette receives full press association dispatches, and the news is three hours later than that of Chicago and Milwaukee evening papers sold in this part of the state.

The Quality Dined Out By a Hurdy-Gurdy—Tubed by the Police.

Two Italians, a horse and a mechanical piano, more commonly known as a "hurdy gurdy" rolled into town yesterday and dispensed a questionable quality of music among the populace. They were told by Chief Hogan to stand not on the order of their going and went at once.

## JOHN KELLY WINS THE GREAT RACE

JANESVILLE MAN LANDS THE \$10,000 EVENT.

With His Fast Namesake He Took First Money and Lowered the Record For the M and M. Stake—Paraded Before 5,000 People—Cracks All Beaten

John Kelly, the famous Janesville driver, named in honor of his driver, won a great victory at Detroit yesterday. The Associated Press telegram gives details as follows:

Detroit, July 20.—Directum Kelly, the product of the East View farm and the property of James Butler, of New York, won the Merchants' and Manufacturers' annual stake race today. He also lowered the M. and M. time record by a quarter of a second below 2:11 made by Rimes, the winner of last year's M. and M. Kelly's former record was 2:14.

In winning the great event of the Blue Ribbon meeting, Kelly displayed splendid staying qualities as well as speed. When the race was over the winner paraded before the crowd of 5,000 people, wearing a floral blanket representing the stars and stripes.

Kelly's principal opponent was the Colorado mare, Belle J., who failed to stay in front after two heats. Battelton, a Village Farm gelding, driven by Geers, was a strong favorite in the auction pools before the start, but he was drawn after finishing four times among the tail-enders.

Toledo Mare Distanced  
The Toledo mare, Lurline McGregor, who was considered a very good chance, was distanced in the first heat caused by the breeding of a rein buckle. Belle J. became the first choice at even money and upward, after the first heat, until Directum Kelly began showing his business qualities.

The day was ideal and the track fast. Four races were finished before dark, besides completing the 2:10 trot, unfinished Tuesday. Mattie Patterson got first money in the latter event, Judge at Law second, Sister Alice third and Elliott fourth. Time in the deciding heat, 2:12. The three minor races of today went to favorites, but most of the heats were well fought out.

The sixteen starters in the M. and M. stake scored thirteen times before they got away the first time. Belle J. pulled away from the crowd at the quarter and passed Tacoma, the leader, before reaching the half. Major Chew came out and held third place. Belle J. won the heat easily. The Colorado mare gallantly held her pole lead throughout the second heat. Kelly drove his horse out so strong in the home stretch that he broke and let Belle J. jing under the wire.

Belle J. again led in the third heat, with Tacoma second to the three-quarters. Then Kelly went out for the race. He forged ahead at the distance pole, the lagging gait of Belle J. at the finish showing she was certainly tired. It was the fastest heat in the annals of the M. M. event.

Lands the Winning Heat  
Major Chew essayed to get a better place in the fourth heat. He had a great brush with Belle J. and Directum around the second turn. The Major broke near the finish, and it was Kelly again, Belle J. this time finishing among the also. Directum Kelly left the bunch and won the fifth heat with little trouble. He took about \$3,000 of the money. Belle J. \$2,500 and Major Chew \$1,000.

A \$2,000 consolation event for the non-winners will be trotted Friday. The summary:

MEDAL FOR CENTURY RIDERS  
Orion Sutherland Offers a Prize For Long Distance Cyclists.

Local Centurian Orion Sutherland, of the Century Road club, will award a medal to the local members making the greatest number of centuries between July 15 and December 31, provided that the membership in the city is ten or more. There are now five who are members of the club, and as the medal is a beauty the rider who wins it will indeed be fortunate. There is plenty of good material among the local cyclists and Mr. Sutherland should have no trouble in securing the required number to enter the competition.

THOUGHT THE PRICE CHEAP  
Mrs. Churchill Was Willing to Pay \$3.75 For Slapping a Neighbor

Mrs. Eliza Churchill, of the town of Harmony, was before the bar of the municipal court charged with assault and battery, the complaining witness being Mrs. Emily Davis, a neighbor, who declared defendant deliberately and feloniously slapped her face. She said that while the physical injury was not great the assault was very fatal to her peace of mind and hence her complaint. The little burst of passion cost the defendant \$3.75 and she thought it cheap at that.

ARE ALL IN COOPER'S FAVOR  
The Local Republicans Do not think Opposition Will Be Apparent.

In an article on the congressional campaign in Wisconsin, the Milwaukee Evening Wisconsin says: "According to the Janesville papers neither State Senator John M. Whitehead nor Attorney M. G. Jeffris of Janesville, are to be candidates for the republican nomination for congress in the First district, as has been stated in several papers. Senator Whitehead, in an interview in the Janesville Gazette, declared himself in favor of Mr. Cooper's renomination, and an ardent supporter of the Racine man."

"Attorney Jeffris has repeatedly stated that he is not a candidate, and also declares himself in favor of Mr. Cooper's renomination."

"Assemblyman William G. Wheeler, whose name has been frequently mentioned by his friends, also declares that he is not a candidate, and that his best efforts are, and will be directed toward the advancement of Mr. Cooper's claims."

"Rock county republicans are apparently unanimously in favor of Mr. Cooper's renomination and it is not thought in Janesville that the opposition to the First district congressman will be seen in the convention at all."

JANESVILLE WENT DOWN  
Was Beaten 7 to 1 by the Rockford Base Ball Team Yesterday.

The ball game yesterday between the Rockford semi-professionals and the Janesville Y. M. C. A. team was too one-sided to be interesting. The local players did very well in keeping the score of the visitors down to seven runs, and have no reason to be ashamed of the fact that they scored but one.

The Rockford boys played a strong game from the start to finish. Luck, too, favored the Forest City club, and assisted them at several critical points. The summary of the game shows that the Janesville club was not so much inferior to the visitors in points which usually tell, as the score of 7 to 1 would imply. The record in brief stood:

Base hits—Rockford, 8; Janesville, 6. Errors—Janesville, 6; Rockford, 4. Stolen bases—Rockford, 2; Janesville, 2. Time—2 hours. Umpire—Ralph Saray.

The score by innings:  
Rockford..... 1 2 0 0 1 0 3 0 0 7  
Janesville..... 0 0 0 0 1 0 0 0 0 1

FELL FROM A SCAFFOLDING  
Four Men Have a Narrow Escape From Death in Odd Fellows' Hall

There was a close call to a serious accident at the West Side Odd Fellows' hall yesterday. Four workmen were engaged in decorating the ceiling when in some manner the scaffolding on which they were working gave way, precipitating them to the floor.

One of their number, William Hayes, injured his leg so badly that he was removed to his home, 150 Jefferson street. That there were no more serious results is to be wondered at when the height from which the men fell is considered.

## GEORGE ASHLEY HURT AT EL PANING

JANESVILLE MAN WOUNDED IN WHILE FIGHTING IN CUBA.

Some of His Comrades Skulked in the Face of Danger—Injured Soldiers Brought North for Treatment—Port Rations Served on Board the Hospital Ship

George Ashley, foreman for a Rock River Cotton company, has received a letter from his son, G. H. Ashley, who enlisted in Company B, Second Massachusetts Volunteers, and was wounded in the battle of El Panig, before Santiago. When disabled he was sent with others back to this country, and is now at Springfield, Mass. After describing the preliminaries to the battle, he says: "Our company was pretty badly torn up. I was wounded by a forty-five caliber brass bullet, which struck me in the left forearm a little below the elbow, passed down and through and lodged about half an inch back from the skin and two inches above the wrist. Poisoning set in but it was checked in time and is nearly well now."

"There is no need of telling you how we fought, as you no doubt have already read that each man did his duty. There were some deserters but none of them were members of our company I am thankful to say. Only one man in our company was killed outright, but when I left the island it looked very bad for some who were most seriously wounded. I was lying beside my captain when I received the bullet and to all appearances my wound was the means of saving his life. I have seen a great deal of the world I never expected to see and have witnessed scenes such as they may well say no one has seen since the civil war. The firing was for a long time incessant and the air was something indescribable. Bullets were screaming and whistling about our heads as thick—yes, a great deal thicker—than one can imagine. I was an eye witness to many sickening sights and saw men killed and wounded all around me."

"After my wound was dressed I assisted in taking care of the wounded officers, during which time I began to familiar with the methods of the Red Cross society in caring for the injured. When we were placed on the boat I was fortunate in being assigned a position in the deck's gallery, and in that manner was able to obtain the very best food the boat afforded, but the food of most of the others, I regret to say, was terrible. Men who were sick with fever were fed on bacon, hard tack and tomatoes, the officers stealing all the sweetmeats, cooling beverages and fresh meat, and the privates were obliged to take what was left. I do not write this to inspire pity, as I do not need it, but simply to let you know the plain unvarnished truth as to the treatment by the United States of her soldiers when she has a full treasury."

A MAN by the name of Moran, who was sentenced for six months at Madison, July 4, but who escaped from the officers there, was caught here by Officer Appleby last evening. He will be taken to Madison this afternoon.

## ATTITUDE OF EUROPE

NEUTRAL UNLESS UNITED STATES EFFECTS BRITISH ALLIANCE.

The Statement of a Diplomat—President's Rejection of Sir Julian Pauncefote's Reported Proposal Commended as Wise. In No Danger From Europe.

"If President McKinley had effected an understanding or tacit alliance with Great Britain, as was proposed the other day by Sir Julian Pauncefote, he would have made a great and almost irreparable blunder. Fortunately the president was too astute to be caught in such a trap."

The foregoing words were spoken to me by an important member of the diplomatic corps, the representative of one of the great nations of Europe, and some valuable information concerning the attitude and relations of the various foreign powers was given by the diplomatist who is quoted above.

"Russia has an understanding with Spain that should Japan threaten the Philippines the czar will interfere actively," he said. "This entente, not being generally known, caused the expression of the imperial purpose of Russia in the Videmost on Nov. 19 to be much misunderstood. The czar, having been approached by Spain, announced in his organ:

"The minister of foreign affairs recently informed his excellency the ambassador from Spain that in the event of war between the United States and Spain growing out of the Cuban insurrection the government of the czar is compromised to support neither side, but will observe a strict neutrality up to a certain point."

"The certain point is that if Japan should take advantage of the situation to seize the Spanish possessions in the orient the czar would feel himself called upon to intervene to prevent the aggrandizement of Japan. Reasons for this course are obvious. Reasons are just as obvious why the czar would remain strictly neutral between Spain and the United States.

"It behooves the United States at this time to understand the reason of the new alignment of the powers of Europe," continued the diplomat. "During the last 100 years Great Britain has pursued a policy of aggression. Every spot on earth that seemed capable of only weak defense was being brought under her power. It is not unreasonable to assert that had England been permitted to carry on her programme for 50 years more practically all of Africa, the richer parts of Asia and many islands of the sea would have fallen under her dominion, and she would have been strong enough to have dominated the world.

"Individual nations of Europe had begun to follow her example, but when the Greek war was deliberately fomented for the purpose of embroiling and weakening the continental sovereignties a halt was called, and it was determined to oppose to her plans a concert of nations and to circumscribe her audacious efforts wherever possible. For this reason the new triple alliance has been formed by France, Germany and Russia. Peace in Europe they will maintain, but the boundaries of the British empire have been stretched to their utmost limit until she can conquer Europe.

"This has simply been a matter of self preservation. No European nation except Great Britain has anything to fear from the ambition of the United States. The United States has nothing to fear from any of the continental nations, but she has everything to fear from an alliance, quasi or open, with Great Britain. Under no circumstances could the United States be the English cat's paw.

"Following the ostentatious visit of Sir Julian Pauncefote to the president," continued this member of the diplomatic corps, "there was some irritation in Europe. Happily the American people have repudiated the scheme, and the administration has delicately but effectively assured the world that it is not in search of an ally. The continental nations have therefore returned to their old positions. Russia's programme I have already made plain. Germany has within the last few days renewed its declaration of neutrality between the United States and Spain.

"France is laboring to protect her financial interests in Spain, but is doing it with an eye friendly to the United States. While she exerts herself for peace she expresses no hostile purpose if the United States sees fit to avenge her honor or to take such measures as are necessary for her peace and quietude, though France would naturally like to have the financial interests of her citizens considered as much as possible in the Cuban settlement.

"Austria has more than once assured not only the United States but the concert of Europe that the relationship of the queen regent of Spain and the Austrian reigning family will not affect national policies. When Queen Christina married into the Spanish house, she relinquished all claims upon Austria except those of family sympathy. All these assurances have been given by European governments. The countervailing proposition of Great Britain to place her fleet at the disposal of the United States is not of particular moment.

"It may be asserted that the United States is in no danger from continental Europe. While the nations of Europe would deplore war between Spain and the United States because in the present state of the armament of the powers any war is dangerous for all, and while they are now doubtless trying by diplomatic pressure to restrain Spain, yet there is no purpose to coerce the United States or thwart her so long as the present balance of power in Europe is not disturbed by the weight of her influence on one side or the other. It might be that Spain would find allies if England was the friend of the United States."—Walter Wellman in Chicago Times-Herald.

## MERRITT MAY HAVE TROUBLE.

Philippine Insurgents Likely to Prove Unruly.

Washington, July 21.—When Maj. Gen. Merritt reaches Manila, about Aug. 2, he will issue a proclamation declaring the Philippine Islands the military possession of the United States, and then, if ever, the clash will come between Aguinaldo, leader of the insurgents, and the troops sent by our government to occupy the island of Luzon and capture the Spanish army.

Rear Admiral Dewey has kept the president informed of the conspiracies Aguinaldo has hatched, and of his attempt to induce the surrender of Capt. Gen. Augustin and persuade him to cooperate with the rebels in an effort to cause the withdrawal of the United States army, but there does not seem to be much concern in administration circles over the ability of Dewey and Merritt to control the situation.

General Merritt will be absolute leader upon the land as soon as he arrives.

If Aguinaldo interferes with the carrying out of his instructions American guns will be turned upon him.

In a sense he is the lawful ally of the United States, but, it is asserted, he has betrayed the trust imposed in him.

Serious complications may result on account of the strained relations between the insurgents and the United States, but Washington is assured that not one of the foreign powers will be so rash as to interpose on any pretext whatever.

Decision in Forester Case.

Milwaukee, July 21.—Judge Ludwig in the superior court Wednesday rendered his decision in the injunction case of the supreme court, United Order of Foresters, in favor of the Minnesota faction, headed by Judge James A. Schoonmaker of St. Paul, holding that the supreme officers headed by Schoonmaker were legally elected, thus nullifying the election of the officers of which A. W. Stoltz of Chicago was supreme chief ranger.

Removed Riot at Mayaguez.

New York, July 21.—A special dispatch from St. Thomas, Danish West Indies, to the Journal reports that a serious riot occurred at Mayaguez, Porto Rico, Sunday, resulting in the killing of nine persons and the wounding of many others. Spanish residents of the place attacked natives whom they accused of being American sympathizers and intending to aid the invading army from the United States.

Harvest a Heavy Wheat Crop.

Niles, Mich., July 21.—Farmers in southern Michigan are now finishing up harvesting the largest crop of wheat in twenty years. In many instances the yield has been thirty-three to thirty-five bushels to the acre, and in some cases as high as forty-two bushels to an acre.

Says Blanco Has Not Resigned.

Madrid, July 21.—The minister of war, Gen. Coren, categorically denies that Capt. Gen. Blanco has resigned. He adds that there is absolutely no news from Cuba, "as the Americans control the wires and refuse to transmit official dispatches."

Coal Mine Workers Succeed.

Danville, Ill., July 21.—The drivers of the Pawnee coal mines were successful in their strike. They were out two hours, when the operators granted the increase in wages.

Relieved of Tonnage Tax.

Washington, July 21.—The president has issued a proclamation relieving Danish vessels from the imposition of the tonnage tax.

Southerners Are Angry.

Washington, July 21.—There is some angry comment being offered by southern senators and congressmen because Secretary Alger has not assigned any southern troops to the front. The only regiment ordered moved so far is the First Florida, and its destination is Ferdinandina, where it will remain in reserve.

Troops Are in Better Health.

San Francisco, July 21.—The latest report of the health of Camp Merritt shows considerable improvement in the condition of the troops. There has been a decrease of 25 men a day on the average in the Kansas regiment since the location of the camp has been changed.

Aman in Virginia, rode forty miles of Fairfax Station, for the express purpose of getting Chamberlain's Cough Remedy and took home with him, a dozen bottles of the medicine. The druggist who relates the incident adds: "Your remedy seems to be a general favorite wherever known." Its effects are indeed wonderful in all lung and throat troubles. Procure a bottle at People's Drug Store, E. Milwaukee St.

To Take Prisoners Home.

Washington, July 21.—Arrangements have been practically concluded by the government for the transportation of the Spanish prisoners at Santiago from Cuba to Spain. The contract was awarded to the Spanish Transatlantic Company, represented by J. M. Ceballos & Co. of New York.

Insurgents May Help Spain.

Madrid, July 21.—Premier Sagasta and Gen. Coren, minister of war, declare that the latest news from the Philippines is of the most favorable character. Gen. Coren's advice indicates that the insurgents are now displaying "only a lukewarm hostility toward the Spanish troops."

Hon. C. B. Bush, president of the Gilmer County (W. Va.) Court, says that he has had three cases of flux in his family, during the past summer, which he cured in less than a week with Chamberlain's Colic, Cholera and Diarrhoea Remedy. Mr. Bush also states, "but in some instances there were twenty hemorrhages a day—Glenville, W. Va., Pathfinder. This remedy has been used in nine epidemics of flux and one of cholera, with perfect success. It can always be depended upon for bowel complaint, even in the most severe forms. Every family should keep it at hand. The 25 and 50 cent bottles for sale by People's Drug Co., E. Milwaukee St.

Cold Water Gorge and Witches' Gulch are bits of wonderful almost magical incursions formations of rock, and as a cool retreat are a luxury. Round trip rate only \$2. Train leaves Janesville over the St. Paul railway at 7:30 a. m. Sunday July 24.

E. C. Blanks, of Lewisville, Texas writes that one box of DeWitt's Witch Hazel Salve was worth \$50.00 to him. It cured his piles of ten years' standing. He advises others to try it. It also cures eczema, skin diseases and obstinate sores. People's Drug Co., East Milwaukee street.

## LATE NEWS BY TELEGRAPH.

## PRESIDENT IS DETERMINED.

His Mind Made Up to Force the Hand of Spain.

## MUST EITHER FIGHT OR YIELD.

The War from Now On Is to Be Pushed Relentlessly Until Spain Shall Have Openly Sued for Peace—A Warning to Europe.

Washington, July 21.—Commodore Watson's eastern squadron will not get away before next week, but the navy department is rushing the work of getting everything ready for this cruise, of which so little official information has been made public, and regarding which there has been so much speculation.

The one thing definite and official is that the squadron will go to Spain. It is the intention of the administration to compel Spain to either fight or sue for peace. She has done neither so far. She declared war, and then sat down to defend her possessions.

The purpose of President McKinley in making this demonstration in Spanish waters is given another and most significant meaning by some of the officials here. They say it is intended to show the European powers, especially those which have seemed most unfriendly to the United States, that no interference of any character will be tolerated by the government at Washington.

In support of this view they cite the change in the character of the squadron which is to be under Commodore Watson's command. It will consist of some of the strongest battleships and fastest cruiser in the United States navy, and in numbers sufficient not only to accomplish any object which may be aimed at on Spanish soil, but also to meet any hostile force which may be sent against it.

The main purpose of the movement, therefore, is to force Spain to act. The secondary to warn European nations not to attempt interference. Commodore Watson will receive instructions as he goes along after he reaches the other side. He may either remain in the Mediterranean, pursue his journey even as far as the Philippines, and effect a junction with Admiral Dewey, or he may be recalled to the United States. His movements will be directed from Washington, and will depend on Spain's actions and the tactics of other European powers.

Commodore Watson's squadron will be the most significant effort of this kind, and if Spain doesn't do something to show that she is engaged in war with the United States there will be an army of invasion for Spain. The war will be pushed relentlessly until Spain is ready to ask for peace and ask it openly.

## TROOPS SAIL FROM CHARLESTON.

First Expedition to Follow Gen. Miles Starts for Porto Rico.

Charleston, S. C., July 21.—With bands playing and 30,000 people cheering the first expedition to follow Gen. Miles to Porto Rico got away from here at 7 o'clock Wednesday evening. The expedition is under command of Maj. Gen. J. H. Wilson and will when complete consist of the Second and Third Wisconsin, the Sixteenth Pennsylvania regiments and two companies of the Sixth Illinois. The first two regiments are on the transports Grand Duchess and No. 20, respectively, and they are at sea. No. 21, carrying the Sixteenth Pennsylvania and the Illinois men, is in the stream and will sail today. Each of the ships carries a large quantity of supplies and on No. 21 there are 1,000 head of mules and the wagon train of Gen. Wilson's division. These men, together with those of the Sixth Illinois and Sixth Massachusetts, which sailed from here last week for Santiago, constitute the first brigade of the First division of the First army corps.

The scene which accompanied the departure of the vessels from their docks was one of indescribable enthusiasm. Practically the entire population of the city was in evidence. As the vessels made the stream the bands on shipboard and ashore played national airs and the thousands of people cheered like mad. The expedition will sail directly for Porto Rico.

## GEN. MILES IS ANGRY.

Annoyed at His Enforced Stay at Guantanamo.

Washington, July 21.—Gen. Miles did not leave Guantanamo Wednesday for Porto Rico, and the authorities are unprepared to account for the delay. In his dispatches the general says the navy has not yet furnished him with a convoy, and he expresses considerable exasperation that he should be kept waiting when the ships have nothing else to do now that Santiago is in complete control. He announced that the transports Lampasas and Nueces from Tampa had joined him with the artillery and siege train and about 600 regulars and engineers. This, he said, gives him ten vessels under his immediate command. Gen. Miles says the men are extremely restless under the close and unnecessary confinement to the transports and his horses are dying.

Upon receipt of this information an urgent dispatch was sent by Secretary Long to Admiral Sampson directing that a sufficient force of vessels be furnished at once for the safe conduct

of Gen. Miles' expedition. If the admiral receives the dispatch in time the flotilla will probably start today.

## Wants List of Victims.

Washington, July 21.—Secretary Alger has called to Gen. Shafter directing him to cause to be prepared at the earliest possible moment a complete list of the American soldiers suffering from yellow fever, as well as the names of those who have lost their lives from that disease. This information will be telegraphed to the war department, and it is expected will serve to allay the apprehensions of the relatives and friends of our soldiers.

## Scottish Wants the Facts.

Madison, Wis., July 21.—Gov. Scofield has received telegrams from Colo. Born and Moore of the Second and Third Wisconsin regiments at Charleston saying that the widely published statements of extreme suffering by the soldiers, due to eleven mile tramps in heavy marching order before breakfast and under a broiling sun, are largely exaggerated. The governor, however, is not satisfied and has telegraphed others, not bound by military etiquette from criticizing the superior officers. The governor is now more determined than ever to find out the facts in this matter, and, if they justify it, will vigorously protest to the war department.

## Want to Know Our Conditions.

Paris, July 21.—The Temps has received telegrams indicating semi-official communications are passing between Spain and the United States, the former desiring to sound the government at Washington as to the conditions it will demand for the re-establishment of peace.

London, July 21.—The Morning Post's Madrid correspondent states positively that the ministers have agreed unanimously in favor of peace, leaving the responsibility of capitulating to Blanco and Toral solely.

## Rumors of Peace Silenced.

Washington, July 21.—Gen. Stewart L. Woodford, United States minister to Madrid, was in Washington Wednesday and held a conference with the president and secretary of state. His presence revived rumors of peace negotiations, but these were quickly silenced. The story that Sir Henry Drummond Wolff, British ambassador at Madrid, has been fully informed as to the terms upon which the United States is ready to make peace is also denied.

## More Troops for Dewey.

San Francisco, Cal., July 21.—The steamship Rio de Janeiro will sail for the Philippines Saturday morning at 9 o'clock. The troops to compose the expedition will be two battalions South Dakota volunteer infantry, 701 men; 104 recruits for the Utah light artillery, and 53 enlisted men of the signal-corps detachment. The expedition will be in charge of Brig.-Gen. H. G. Otis.

## Loses Sympathy for Spain.

London, July 21.—Emperor William is reported to have said to his British naval guests on the royal yacht Hohenzollern a few days ago: "Spain deserves to lose her empire, because she cannot shoot straight." Then he added expressions of contempt for her navy and seamen. There is no doubt about the accuracy of this statement. The emperor has lost all sympathy for Spain.

## Gen. Garcia's Death Reported.

Kington, Jamaica, July 21.—Cubans arriving from Siboney bring reports of the death of Gen. Garcia. They make a mystery of it, saying that it should not be known in Cuba yet or in the United States, for reasons of state, and give no particulars except that he was shot. Spanish refugees here who are officially connected with Gen. Blanco believe the story.

## TUMOR EXPELLED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound.

Mrs. ELIZABETH WHELOCK, Magnolia, Iowa, in the following letter describes her recovery from a very critical condition:

"DEAR MRS. PINKHAM:—I have been taking your Vegetable Compound, and am now ready to sound its praises. It has done wonders for me in relieving me of a tumor."

"My health has been poor for three years. Change of life was working upon me. I was very much bloated and was a burden to myself. Was troubled with smothering spells, also palpitation of the heart and that bearing-down feeling, and could not be on my feet much. I was growing worse all the time, until I took your medicine."

"After taking three boxes of Lydia E. Pinkham's Vegetable Compound Lozenges, the tumor passed from me. My health has been better ever since, can now walk quite a distance and am troubled no more with palpitation of the heart or bloating. I recommend your medicine to all sufferers from female troubles."

It is hardly reasonable to suppose that any one can doubt the efficiency of Mrs. Pinkham's methods and medicine in the face of the tremendous volume of testimony.

## MOVE CALLED A MISTAKE.

United States Is Advised Not to Attack Spain.

## WOULD CAUSE COMPLICATIONS

German Press Points Out the Danger—Even the London Chronicle Is Fearful and Hopes the Program Will Be Reconsidered.

Berlin, July 21.—The Kreuz Zeitung, conservative, declares that if Commodore Watson comes into Spanish waters it will be a profound political mistake. It adds:

"They are overrating their strength at Washington. Even the occupation of the Canary Islands might lead to regrettable complications."

The Kreuz Zeitung evidently believes that an attack on the Spanish coast will compel the powers to intervene. The paper charges Great Britain with inciting public opinion in the United States against Europe, which charge a number of other German newspapers seem also to believe.

London, July 21.—The Chronicle, which is the most ardent supporter of the United States among the London press, expresses apprehension of the result of Commodore Watson's expedition, believing that it will stiffen Spain into impervious obstinacy, causing an indefinite postponement of peace; while, at the same time, it will probably lead to some kind of harassing intervention by other powers. The paper suggests that the United States should reconsider the step.

## TO RECEIVE SPANISH ARMS.

Gen. Toral's Soldiers Will Surrender to Lieut. Miles.

Santiago de Cuba, July 19, via Kingston, Jamaica, July 21.—Lieut. Miles of Gen. Shafter's staff left here this morning with a troop of the Second cavalry, mounted, under Capt. Brett, to make the rounds of the entire military district of Santiago de Cuba, and for the purpose of receiving the formal surrender of the Spanish forces.

He will go first to San Luis, where there are about 4,500 of the enemy's troops. Lieut. Miles will then receive the surrender, in order, of 800 men at Cobre, 1,200 at Catalina, 2,500 at Guantanamo and 3,500 at Baracoa. A total of 20,000 Spaniards are expected to yield their arms to this one troop of cavalry.

To reach Baracoa, Lieut. Miles will be compelled to ride straight across the island to the northern coast, led by a Cuban guide. He will ride under a white flag, for protection, but Gen. Toral has sent members of his staff ahead to notify the post commanders of the terms of the surrender.

## AID COMES FOR DEWEY.

Monitor Monterey Now Believed to Be at Manila.

Washington, July 21.—According to the calculations at the navy department, Admiral Dewey's fleet at Cavite should now be re-enforced by the coast defense vessel the Monterey, which, with her tender and collier, the Brutus, has now been about twenty days out from Honolulu. With the addition of this fine and powerful monitor Dewey will be amply able to take care of himself so long as the naval forces in the Philippines are maintaining the relative proportion they now occupy.

However, the disclosure by the state department of the lack of foundation for the sensational stories of strained relations with Germany has largely abated the anxiety entertained at the navy department as to Dewey's position at Manila.

## Seneca Is Quarantined.

New York, July 21.—The transport Seneca, Cap. Decker, with sick and wounded soldiers and civilians, arrived from Siboney Wednesday. She reached quarantine shortly after 10 o'clock and was detained there by Dr. Doty, health officer, for observation and disinfection. The vessel was found to be in a filthy condition. There were no proper facilities for taking care of the patients, and there were only two physicians on board. If yellow fever had broken out on the voyage the mortality would have been terrible.

## Blanco's Drafts Heavy.

Madrid, July 21.—The government is in severe financial trouble. The Bank of Spain is placing obstacles in the way of further advances of money and is now demanding security. It has lent 8,000,000 pesetas to date. Blanco is making drafts for nearly 1,000,000 a week for expenses in Cuba. The government's financial resources are almost at an end.

## Fever Mild in Type.

Washington, July 21.—Dr. Greenleaf's last report to Secretary Alger from the American camp at Santiago came Wednesday and was to the effect that while the yellow fever was widely spread among the troops it was very mild in type. Gen. Dufiled, who had been suffering from the disease, was reported to be improving yesterday.

## French Desires Reciprocity.

Paris, July 21.—A deputation comprising a number of the most important members of the chamber of commerce called upon M. Marthe-Jouin, minister of commerce, and asked that the government secure a commercial entente with the United States under the benefit of the terms of article 4 of the

#### BELOIT SCHOOL SITES

New Buildings For the Accommodation of Pupils Are to Be Erected At Once.

Beloit, Wis., July 21.—[Special]—The adjourned meeting of Union School district No. 1, City of Beloit, joint with the towns of Beloit and Turtie was held at the school house Tuesday night. J. B. Dow was chairman. After the minutes of the last meeting were read, L. W. Thompson from the special committee appointed to secure a site for the new school house reported that of the four sites, recommended that offered by Mrs. Ella D. Adams for the sum of \$1,200, situated at the corner of Harrison and Woodward avenues. On motion the school board was authorized to procure the building of a four-room school house upon the site at a cost not to exceed \$8,000, the same to be completed by January 1, 1899.

The adjourned annual meeting of Union School District No. 2, City of Beloit, joint with the town of Beloit, was held Tuesday evening. Mrs. Gr. Jell, chairman of the committee to whom was referred the question of providing a kindergarten room recommended several sites for building a new kindergarten. The Bowker property and that on the Parker grounds were recommended.

The new schoolhouse on the west side in district No. 2 is nearing completion, but it is found that it is not large enough for the number of children that will have to occupy it. There are so many new families coming in that it will be found necessary to enlarge the school.

They are wanted to serve as military pickets for the city of Santiago proper, thus obviating the necessity of retaining within the zone of infection any of the men who now constitute his army.

Queen May Change Ministers. London, July 21.—The Madrid correspondent of the Daily Mail says that although the queen regent is anxious that the Sagasta cabinet shall negotiate the inevitable peace treaty, she will seriously consider a change of ministers if better progress is not made in the peace negotiations during the next few days.

Indiana Loses About \$20,000. Indianapolis, Ind., July 21.—Under the government's ruling regarding the reimbursement of states for the concentration of volunteers Indiana will lose about \$20,000 by reason of "quitters" and rejected men whose expenses the government refuses to pay.
